VITAPUR NIGERIA LIMITED

QUALITY, ENVIRONMENTAL AND OCCUPATIONAL HEALTH & SAFETY POLICY

Our policy at Vitapur Nigeria Ltd. is to manufacture, fabricate and install its various polyurethane rigid foam products, some of which include prefabricated buildings, sandwich panels, insulation boards, chemicals systems, pre-cut pipe sections as well as perform in-situ insulation services by means of spray foam equipment and other assorted tools products that conform to international standards, applicable legal and other requirements as well as surpass customers' expectations at a price that represents value.

We are committed to:

- Taking into consideration quality, environment and occupational health & safety and criteria in each and every work process.
- Complying with all applicable legal requirements, relevant industry standards and other requirements with respect to quality, environment and occupational health & safety.
- Satisfying fully the quality, environment and occupational health & safety standards of our clients.
- Integrating sustainable development principles in all our activities.
- Promoting through management commitment and employees' training, company-wide participation in the quality, environment and occupational health & safety continual improvement process and recognise those who contribute.
- Providing safe and healthy working conditions for the prevention of work-related injury and ill health.
- The protection of the environment and prevention of pollution
- Elimination of hazards and reduction of OH&S risks.
- Sharing with our partners, suppliers, contractors and subcontractors our Quality, Environment and Occupational Health & Safety commitments.
- Reporting our performances against annual objectives.
- Consulting with and participation of workers and workers' representatives,
- Continual improvement of the Quality, Environment and Occupational Health & Safety Integrated Management System to enhance our Quality, Environment and Occupational Health & Safety performances.
